Dear Mr [Redacted]

Tow Bar Legality on Non Type Approved Vehicles

Thank you for your email dated 14 March to the Department for Transport about tow bar Legality on Non Type Approved Vehicles. Your correspondence has been passed to us in International Vehicle Standards (IVS) as we have responsibility for vehicle safety.

We suggest you contact the manufacturer on this matter as there may not be any points of sufficient strength to mount the towbar.

Assuming it can be safely mounted, we believe that you could use a towbar mounted bike carrier.

Please note that this letter contains the views of the Department for Transport and that insofar as this letter provides an interpretation of the law, it is only a court of law that is able to give a legally definitive interpretation.

Yours sincerely
